Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission which included cancellation 1, 3-9, 12-15 and addition of new claims 16-24, filed on 10/16/2008 has been entered. Claims 16-24 are now pending. In view of applicants' response, all prior art rejections made in the previous office action except that made over Barton have been obviated. Applicants have not addressed the rejection over Barton and the amended claims are still anticipated by Barton. Hence, this rejection is reapplied to currently pending claims.

BIBSHEET

The information provided by applicants is not consistent with that in the PTO records. An appropriate correction or clarification is needed to correct the BIBSHEET before allowance of pending claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16-18 and 22 are rejected under 35 U.S.C. 102 (b) as being anticipated by Barton, EP 0448206.

Barton teaches several benzimidazole compounds, which include instant compounds. See entire document, especially pages 43-44.

Allowable Subject Matter

Claim 19-21 and 24 are allowed, barring finding of any prior art in a subsequent search.
